

Hasan Mahmud

Full-Stack Developer

Professional Summary: Full-stack developer with 3+ years freelance experience. Builds well-optimized, pixel-perfect UIs, smooth animations, and user-friendly apps & websites. Seeking a full-time role to deliver high-quality, impactful products.

PROFESSIONAL EXPERIENCE

Full-Stack Software Developer (Freelance)

Fiverr / Remote | May 2022 - Present

- Built mobile apps with React Native or Flutter and web apps with React.js.
- Developed backend APIs with Node.js/Express, integrating with databases.
- Completed projects with consistent 5-star ratings from global clients.
- Ensured quality with responsive UI, testing, and smooth deployments.
- Skilled in JavaScript/TypeScript, REST APIs, Git, and cloud platforms.

PROJECTS

Smart CV

[View on Play Store](#) [Source Code](#)

Think nXt Media | May 2022 - Sep 2022

A fully offline mobile app for creating stylish CVs & resumes.

- Developed resume builder with customizable fonts, colors, and page sizes.
- Integrated multiple PDF templates and in-app PDF viewer.
- Implemented modular architecture using Zustand for state management.
- Built responsive UI with pixel-perfect layouts and animations.
- Added support for light/dark themes and monetization via Google AdMob.

Technologies: React Native, Tamagui, Zustand, Expo, HTML-to-PDF, rn-pdf-reader

Smart QR

[View on Play Store](#) [Source Code](#)

Think nXt Media | Aug 2022 - Sep 2022

A lightweight Flutter app for scanning and generating QR codes and barcodes.

- Implemented camera and image-based scanning with images_picker.
- Developed QR code generation for text, links, and contacts using qr_flutter.
- Built local scan history using Hive with copy, share, and delete options.
- Enabled saving of generated QR codes to device gallery.
- Optimized UI for dark mode with clean architecture and Riverpod.

Technologies: Flutter, Riverpod, Hive, qr_flutter, scan, images_picker

Saweria

[Visit Website](#) [Source Code](#)

Saweria.co | Jun 2024 - Aug 2024

Frontend development for a platform helping creators connect with fans, manage donations, and grow communities.

- Built responsive and scalable UI with Next.js, Tailwind CSS, and Radix UI.
- Integrated dynamic routes, animations, and real-time updates.
- Delivered pixel-perfect, mobile-first, and cross-platform user experiences.
- Collaborated with backend team for smooth API and feature integration.

Technologies: Next.js, React.js, TypeScript, Tailwind CSS, Radix UI, React, ShadCN
